My skills

- Proactive
- Positive
- Great learning capacity
- Tutor
- Empathic

Work Experience

Professional Driver
Dota S. A. | September 2019 - Present

I currently develop as a bus driver, being 100% present to any type of situation that may happen inside and outside the unit. Seeking to anticipate them or reduce the effects of these in case they are inevitable, always providing a pleasant and empathetic service for users and other road actors.

Taxi owner
Autonomous. | 2013 - 2019

I started as a company driver for a period of one year until I could buy my own unit. Always focused on providing an excellent service to the passenger while maintaining order and cleanliness of the vehicle.

Academic History

Full Stack Developer
Coder House| Mar 2021 - Ene 2022

Creation of websites with responsive design practices, with HTML, CSS and JAVASCRIPT for interactivity and dynamism in the projects.
REACT JS framework for creating complex, dynamic, and scalable sites.
Modern applications with NODE. JS and MONGODB. Programming with server-side JavaScript applying asynchronous techniques.
SQL NoSQL database, mastering the management of data in an efficient, agile and with a great ease of scalability.
